

Privacy Policy

METAPLAYER Inc. ("Company") is committed to protecting users' rights and interests by establishing privacy regulations under relevant laws and regulations, such as the Communications Secret Protection Act, Telecommunications Business Act, Information Network Utilization Promotion, and Information Protection Act.

This privacy policy may be changed according to changes in laws or guidelines related to the privacy policy and changes in company policies, so users should check it frequently when visiting our website.

The company's privacy policy is as follows.

1. Definition of Privacy Policy Terms

① The term "personal information" means personal information such as sign, text, voice, sound, and video that can identify a specific individual by name/resident registration number/Metamask wallet, etc. (including information that can be easily combined with other information even if the information alone is not recognizable).

② The term "user" means a person who accesses Metaplayer's website (<http://metagonz.io/>) and receives the services provided by the company under these terms and conditions.

2. Consent to Collect Personal Information

The company has prepared a procedure for users to click the "I agree" button or "I disagree" button on the contents of the company's privacy policy or terms and conditions.

Therefore, if the user expresses his/her intention to agree, it is considered that he/she has agreed to collect personal information.

3. Items and Methods of Collecting Personal Information to be Collected

① The items of personal information collected are collecting the following personal information for smooth customer counseling and various services.

[Online Inquiries]

- Online inquiries, answers, and customer consultation: name, e-mail, mobile phone number

- Newsletter application, dispatch: name, email

IP address: Cookie, date and time of visit, service usage record

② The Way of Collecting Personal Information

The company collects personal information in the following ways.

Homepage counseling bulletin board, phone, e-mail

4. Protection of Children's Personal Information

① When the company collects the personal information of children under the age of 14, it obtains consent from the legal representative.

② The legal representative of a child under the age of 14 may request the access, correction, and withdrawal of consent of the child's personal information, and if such a request is made, the company takes necessary measures without delay.

5. Purpose of Collecting and Using Personal Information

① Provision of Services

- Inquiries about the use and consultation of various contents provided to users
- Handling complaints, such as handling complaints, and delivering notices

② Develop New Services and Use Them for Marketing/Advertising

- Deliver advertising information such as events, and deliver goods when an event is won
- Development and specialization of new services, provision of services according to demographic characteristics, and posting of advertisements
- Identification of access frequency or statistics on users' use of services

6. Retention and Use Period of Personal Information

The company holds and uses the user's personal information only during the period when the user provides the service.

In the case of withdrawing consent for the collection and use of personal information, if the purpose of collection/use is achieved or the retention/use period is over, the personal information shall be destroyed without delay.

However, the following information will be retained for the period specified for the following reasons:

① Act on the Protection of Consumers in Electronic Commerce, etc

- Personal information and consultation details stated when receiving inquiries: 3-year storage
- Records of consumer complaints or disputes: 3-year storage

7. Procedures for Destroying Personal Information and Its Methods

In principle, when the purpose of using the collected personal information is achieved, the company destroys the information according to the storage period and the usage period without delay.

The company's personal information destruction procedure and method are as follows.

① Revocation Procedure

Information entered for use of the site will be deleted or destroyed for a certain period of time according to the internal policy and other reasons for information protection in accordance with the relevant laws after the purpose of use has been achieved.

② Destruction Method

Personal information stored in the form of an electronic file is deleted using technical methods that cannot be played back.

The personal information printed on the paper is crushed or destroyed by a shredder or incineration.

8. Providing and Sharing Personal Information to Third Party

The company uses the user's personal information within the scope notified in Article 5, and does not use it beyond the scope without the user's prior consent or, in principle, provide the user's personal information to the outside.

[Provided by a Third Party]

In order to provide better services, your personal information can be provided or shared with a third party. If you provide or share personal information, you can obtain consent through e-mail and written notification of who is provided or shared in advance, what items are provided or shared, why such

information should be provided or shared, and how they are protected, or through the terms and conditions. If you do not agree, we do not provide or share it with a third party. When there is a change in the third-party provision and sharing relationship or the relationship is terminated, the same procedure shall be used to notify or obtain consent.

However, exceptions are made in the following cases.

- ① Where a user agrees to disclose personal information in advance;

- ② Where there is a request from an investigative agency in accordance with the provisions of laws and regulations or in accordance with the procedures and methods prescribed in the statutes

9. User rights and How to Exercise Them

- ① Users can inquire about or modify their registered personal information at any time and request deletion.

- ② "Modification of information" can be processed in writing, by phone, or by e-mail to the person in charge of personal information management for the user's personal information inquiry and correction, and cancellation of subscription (withdrawal of consent).

- ③ If a user requests the correction of an error in personal information, the correction will be made as soon as possible.

In addition, if incorrect personal information is already provided to a third party, the result of correction processing is notified to the third party without delay so that correction can be made.

④ The company processes personal information terminated or deleted at the request of the user in accordance with the "6. Retention and Use Period of Personal Information" and processes it so that it cannot be viewed or used for other purposes.

10. Matters Concerning the Installation/Operation and Rejection of Cookies > Need to Agree to Cookies

Cookies are small amounts of information that the website server sends to the user's computer, including information on the website you visited and personal information necessary to verify when providing the service. Users can refuse to receive cookies or change the Web browser settings on the computer they use to warn users about receiving cookies. The company may send cookies to the user's computer if deemed necessary for the use of the Web Service, as follows:

① Purpose of use of cookies Differentiate information based on individual interests

- By analyzing the user's access frequency or usage time, the user's tastes and areas of interest are identified and used for target marketing.
- It can be collected and used as a measure of considering service reorganization by analyzing the habits of users who provide personalized services by tracking the information they have looked at with interest, and registration of bulletin board posts.

② Installation/Operation and Denial of Cookies

- Users have the option to install cookies, and they can also allow all cookies by setting options in a web browser, going through confirmation each time the cookie is saved, or refusing to save all cookies.
- However, if you refuse to save cookies, some of the company's services may be difficult to use.

③ How to Set Up Cookies

- Firefox: <https://support.mozilla.com/ko/kb/disable-third-party-cookies>

11. Technical/Management Protection Measures for Personal Information

The company is taking the following technical and management measures to ensure safety so that personal information is not lost, stolen, leaked, altered, or damaged in processing users' personal information.

① Technical Countermeasures

- The personal information of users is thoroughly protected. Users should not let anyone know their personal information.

For this purpose, the company basically recommends that you exit the web browser online after you finish using it on your PC. In particular, if you share a PC with others or use it in a public place (company, school, library, Internet game room, etc.), the above procedures will be needed to prevent personal information from being known to others.

- The company is taking measures to prevent damage to users' personal information from being leaked or damaged by hacking or computer viruses using vaccine programs.

Data is frequently backed up in preparation for personal information damage, and users' personal information or data are prevented from leaking or being damaged using the latest vaccine program, and personal information can be safely transmitted on the network through encrypted communication. We also use intrusion prevention systems to control unauthorized access from the outside, and we are trying to equip all possible technical devices to ensure security in other systems.

② Administrative Measures

- For the safe protection of users' personal information, the company limits the personal information processing staff to the person in charge and renews them regularly by giving them a separate password. It always emphasizes compliance with the company's privacy policy through training on new security skills and privacy obligations.
- However, the company is not responsible for any problems caused by the leakage of personal information due to the user's own carelessness or Internet problems.

12. Contact Information of the Person in Charge of Personal Information Management and the Person in Charge

Users can report all complaints related to personal information protection to the personal information management manager or the department in charge of the person in charge of the department in charge. The person in charge and the person in charge who processes the personal information will respond quickly and sincerely to your inquiries related to personal information.

Personal Information Management Officer
